

DECORATOR DEHUMIDIFICATION SYSTEMS

For many applications the Nature's Aire Systems Ultra Decorator In-Room Air Purifying Dehumidifier provides ample capacity to address any basement or whole house humidity issue.

This is a self-contained system that features:

- ✓ Up to 88 pints of water removal per day [*Up to 2500 sq. ft. treated*]
- ✓ No bucket to empty
- ✓ Foam pre-filter and 2" pleated main filter improves air quality as it dehumidifies
- ✓ True Low Temperature Operation [*will not ice up*]
- ✓ 5 year warranty on Compressor, Evaporator & Condenser
- ✓ 2 year all parts and 1 year labor warranty
- ✓ System supplied with casters for easy transport within the Structure
- ✓ Size 38"High 21" Wide 18" Deep / approximately 98 lbs. & only 6.8Amps
Uses the same amount of electricity as most 20 to 40 pint units!
- ✓ Quiet Operation for Convenient In-Room Use

The system plugs into a standard 110 volt 15 amp outlet. Control is through a positive ON/OFF switch, an adjustable humidistat (20%RH to 80% RH). This unit comes complete with a condensate pump for water removal and numerous filter options, including HEPA, are available.
