DEHUMIDIFICATION SYSTEMS

For many applications the Nature's Aire Systems Ultra-Air purifying dehumidifier provides ample capacity to address almost any basement or whole house humidity issue.

This is a self-contained system that features:

- ✓ Up to 100 pints of water removal per day [Up to 2500 sq. ft. treated]
- ✓ No bucket to empty
- ✓ Foam pre-filter and 2" pleated main filter improves air quality as it dehumidifies
- ✓ True Low Temperature Operation [will not ice up]
- ✓ 5 year warranty on Compressor, Evaporator & Condenser
- ✓ 2 year all parts and 1 year labor warranty
- ✓ System supplied with casters for easy transport within the Structure
- ✓ Size 36" High 20" Wide 17" Deep / approximately 95 lbs. & only 6.8Amps
Uses the same amount of electricity as most 20 to 40 pint units!
- ✓ Options: Condensate Pump / Fresh Air Kit / Duct Kit
- ✓ Can be upgraded, anytime, for ducting into finished areas.

The system plugs into a standard 110 volt 15 amp outlet. Control is through a positive ON/OFF switch, an adjustable humidistat (20%RH to 80% RH) and there is the ability to have a constant Fan ON or to have the fan cycle automatically when the system is dehumidifying.
